## Class of the Month Spotlight

### 8th Grade

Eighth grade has had a very busy spring! In language arts, they have been studying Shackleton's expedition in Antarctica and decorating the hallway for the literacy unit. In math, algebra is the main focus with a final coming in May. Students are currently working on the Project Lead The Way Flight and Space unit by creating wooden gliders. They will be finishing off the year learning about space and Mars exploration. In social studies, students are finishing up the Great Depression and will end the year with WWII. Finally, students are eagerly preparing for the 8th grade banquet and for their grand exit from Paris School...graduation day! Students would like to thank their families and the P.S.O. for donations, participation, and support. Thank you!

### **Counselor Connection**

We will be finishing the year learning about handling stress, managing our time, and taking initiative in our middle school guidance classes. Fourth grade and fifth grade will be learning about being a good friend and citizenship. As always, please contact me with any concerns.
