## Counselor Connection

In April, kindergarten will be moving into lessons on how to get along with others. First grade through sixth grade will be working on being honest with others and themselves. Seventh and eighth grade will be doing lessons on peer pressure and future planning.

## CLASS OF THE MONTH

### 7th Grade

Coming back from spring break is an exciting time. In Math, 7th graders are moving into their geometry unit and will soon be learning how to find the area of compound figures as well as the surface area and volume of three dimensional figures. In ELA, the 7th graders finished their nonfiction, literacy unit novel, *Which Way to the Wild West?* by Steve Sheinkin. We also have been studying pesky commas. We will start *Roll of Thunder, Hear My Cry* after Spring Break. In Social Studies, 7th grade will be studying the mid-1800s, including women's rights, immigration, and segregation leading into their Civil War unit. In science, 7th grade is starting their Force & Motion unit which culminates with the paper roller coasters. They are all looking forward to building the coasters and can't wait to start.

## WHERE'S PARRY?

Parry had a great time checking out all of the displays in our Wild West hallway, but nobody spotted him. Be sure to look for Parry's new hiding spot for a chance to win three PAWs.
