

Guess who! Do you know this Paris School staff member?

1. I have three grown sons.
2. I went to Germany for a farm tour.
3. I used to be an analytical chemist.
4. I coached cheerleading for nine years!
5. Camping is one of my favorite summertime activities.

Answer: Mrs. Rossi, Jr. High Science Teacher

CLASS OF THE MONTH

8th Grade

Eighth grade has had a very busy spring! In language arts, they have been studying Shakespeare and his comedy, *A Midsummer Night's Dream*. Pre-algebra is finishing up their studies of analyzing data displays and will soon be working on exponents and their properties. Algebra is working on solving quadratic equations using different methods and will be reviewing for their final soon. In Science, 8th graders have started their PLTW Medical Detectives unit. In this unit, students become medical detectives and solve medical mysteries by applying experimental design and problem solving techniques to investigate the inner-workings of the human body, diagnose disease, and improve human health. In social studies, 8th grade will be wrapping up the year learning about WWII. Finally, students are eagerly preparing for the 8th grade banquet and for their grand exit from Paris School...graduation day! Students would like to thank their families and the P.S.O. for donations, participation, and support. Thank you!

Counselor Connection

Have a great summer!

WHERE'S PARRY?

Congratulations to Jayden in 5th grade!
She found Parry hanging in the gym
on the stage curtains.

For finding Parry's hiding spot, JJ receives three Paws.

Enrichment News

Debate

Southern Lakes Advanced Learners Network held its annual Middle School Debate competition on April 27th. The event was hosted by Washington Caldwell and held at Palmyra Montessori School. Our team was made up of Ashlynn B., Riley S., and Addy Z. – with Isla M., our alternate, working alongside. These students prepared to argue both the proposition and opposition for 3 different topics:

“Children should not be allowed to have social media before 18”

“Genetically Modified Food is essential to feed the world”

“Plastics should be eliminated from consumer goods”

After three hours of debates our team emerged in 2nd place – narrowly defeated by a Richmond team with 3 years of experience! We are so proud of how our team performed, and the outstanding Panther Pride they showed to the teams they defeated and to the champions!
