2026-2027

Paris School Newsletter

November 2026

Guess who! Do you know this Paris School staff member?

1. I used to be a cheerleader a long time ago.
2. I love the water but despise all seafood.
3. I am the only teacher in my family.
4. I like neither cats nor reptiles.
5. Cleaning and organizing is my favorite pastime.

Answer: Ms. Phillips, Middle School Science and Social Studies Teacher

CLASS OF THE MONTH

1st Grade

Reading: We're becoming better readers each day! We're practicing fluency, accuracy, and comprehension with fun stories and activities.

Writing: We've been working on writing complete sentences, using capital letters and punctuation, and sharing our thoughts and ideas.

Math: We've been learning about numbers 0-20 and how to solve problems using different strategies.

Science: We're learning what scientists do! We love science with Mrs. Rossi!

Social Studies: We've been learning about our classroom, our school, and our community.

We're so proud of all that our first graders have accomplished so far! We can't wait to see what we'll learn and do together in the months ahead!

❤Mrs. Van Tine & Mrs. Greeno

Counselor Connection

In November, we will start talking about how to keep our minds healthy and working to the best of their abilities. The 7th and 8th graders will also do a lesson in Xello where they are starting to learn and talk about their future careers.

WHERE'S PARRY?

Congratulations to Annabelle in 1st grade. She discovered Parry sitting on the speaker near the Computer Lab. Be on the lookout for Parry's nest hiding spot for your chance to win three Paws!

Enrichment News

Each year, Paris School offers a variety of enrichment opportunities to our students. Our young artists, authors, mathematicians, scientists, spellers, and budding leaders are given the chance to shine! Many of our opportunities are made available through our affiliation with the Southern Lakes Advanced Learners Network. This group of over 40 schools pools its resources to provide math meets, math 24 competitions, creation of an anthology, art immersion, and science immersion days held at a variety University of Wisconsin locations.

This year, Paris School will be hosting the 4th and 5th grade Math 24 competitions. We would like to extend our sincere thanks to County Line Hall for providing a beautiful space as our competition site. We are so grateful! It is the continuous support from our Paris families that allows us to offer these incredible opportunities to our Panthers!

We are looking forward to many events this year. Watch our enrichment news each month for details about our experiences as we learn and grow together.

PARIS PANTHERS

Paris School Music Department Presents:

A Rockin' Christmas

A grade school music concert featuring singing, playing, and movement

Grades K-2	**Grades 3-4**
Monday, December 14th	Tuesday, December 15th

Students may report to their classrooms starting at **6:00 pm**
(grades 3-4 will report to the kindergarten rooms)
Both concerts will begin at **6:30 p.m.**

Students are encouraged to dress up for the concert, holiday attire and colors are encouraged!
